

Environmental Policy

JM Electrics Ltd is a service provider on a main contractor and sub-contractor basis with core activities in Cable Jointing.

We are committed to minimising the adverse impact we make on the environment and to preventing unnecessary pollution whilst conducting our activities.

A primary objective for JM Electrics Ltd is to ensure compliance with all relevant legislative and other regulatory requirements. We are committed to continually improving our environmental performance.

JM Electrics Ltd will take appropriate account of environmental issues in all activities and ensure that business decisions are properly aligned with principles of environmental management.

Specifically these principles are:

- To consult as appropriate with local, national and international statutory environmental agencies and regulatory agencies charged with protecting the environment.
- To consult fully with relevant stakeholders and to take on board the outcome of that consultation in developing and refining our environmental management systems.
- To encourage and train all employees, contractors and sub-contractors participating in the improvement of the Company's environmental performance in relevant aspects of environmental management.
- To mitigate the impact of our activities on the environment and develop procedures to prevent or abate any forms of pollution resulting from our activities.
- To control waste management and recycling in a manner that reduces our burden on landfill and maximises our re-use of materials.
- To minimise the impact of our transport on the environment.

This policy statement will be regularly reviewed and updated as necessary. JM Electrics Ltd endorses this policy statement and is fully committed to its implementation.
